

NATIONAL TAIWAN UNIVERSITY

Student Group Insurance Regulations

May 16, 2007 Passed by the 22nd Student Counseling Committee Meeting

- Article 1 National Taiwan University (NTU or “the University”) hereby formulates the *NTU Student Group Insurance Regulations* (“the Regulations”) to handle matters related to student group insurance (“the Insurance”) for students at the University in accordance with Article 34 of the *University Act*.
- Article 2 All students with formal student status at the University (including student teachers) may choose to participate in the Insurance. Students who decline to participate will not be covered by the Insurance and must submit a waiver signed by their parents or legal guardians detailing their reasons for declining.
- Article 3 The Insurance shall be procured by the University pursuant to the applicable provisions set forth in the *Government Procurement Act*. The President of the University (or a competent representative) shall be listed as the proposer, eligible students as the insured, and their legal guardians or parents or heirs identified on the student status data as beneficiaries.
- Article 4 The Insurance shall cover deaths, disabilities, and injuries requiring medical attention experienced by the insured as a result of illness or accident.
- Article 5 The insured amount for each insured student is based on the insured amount set forth in the Insurance contract.
- In principle, in the event of death of the insured students due to accidental injury caused by participating in educational activities or formal sports tournaments on or off campus (or any other activity registered with and approved by the University), the insured amount shall be twice the amount set forth in the preceding paragraph.
- Article 6 The premium payable by the insured will be subsidized by the University Endowment Fund at NT\$100 per person per academic year (NT\$50 per semester). The remaining premium shall be paid by the insured in two installments, one half each at the time of registration each semester.
- However, the University shall review relevant proof or documents submitted by the following insured students and provide subsidies for two semesters at the maximum amount stipulated by the Ministry of Education. Any outstanding balance of the premium after providing the subsidies shall still be borne by the insured.
1. Students who are exempted from paying tuition and fees (including low-income students, students with severe or profound disabilities, and children of a parent with severe or profound disabilities; but not including state financed students)
 2. Students with indigenous status
- Article 7 The duration of coverage for insured students shall be from August 1 to January 31 for the fall semester and from February 1 to July 31 for the spring semester of each academic year.
- Students who lose their student status shall have their policy terminated at midnight on the last day of the semester.
- Students with formal student status who apply for leave of absence may still

participate in the Insurance by paying the premiums. The proposer shall forward the names, student IDs, and other necessary information of said students to the insurer for reference.

Article 8 The University shall list “insurance premium” on tuition and fee receipts at the time of registration each semester and shall collect and remit all premiums to the insurer or its designated agency 50 days upon collecting students’ payment. The insurer shall issue a receipt to be held by the University.

Article 9 Matters not addressed herein shall be handled in accordance with the terms and conditions set forth in the policy approved by the Financial Supervisory Commission–Insurance Bureau of the Executive Yuan and other applicable insurance regulations.

Article 10 The Regulations shall be formulated by the Student Counseling Committee and then implemented on the date of promulgation.
